Role Cards for the Activity

Stakeholder A: University Registrar

- You are responsible for course registration and student records.
- Current system is paper-based, causing delays and errors.
- You want an online system that allows students to register, drop, and view schedules.
- Key concerns: accuracy, student overload at registration periods, and data security.

Stakeholder B: Student Representative

- You represent students.
- Common complaints: it takes long for a confirmation, errors in course allocation, and lack of confirmation emails.
- You want a fast, mobile-friendly, and transparent registration system.

Stakeholder C: IT Administrator

- You manage the existing servers.
- You're worried about system downtime and unauthorized access.
- You need to ensure the new system integrates with the university's existing systems and runs securely.
